Vladyslav Tsurkanenko `my portfolio`

IAM Technical Consultant && Full Stack Web Developer

My recent role as an IAM Developer and Technical Consultant at Swiss IT Security Deutschland GmbH has honed my expertise in delivering top-tier Identity & Access Management solutions. I have been actively involved in consulting, designing, and implementing solutions using technologies such as SailPoint IIQ, Identity Security Cloud and Entra ID all within an agile and DevOps framework.

Graduating from Spiced Academy has provided me with a strong foundation in Full Stack Development. Additionally, my background in banking and finance has equipped me with teamwork, initiative, and analytical skills, which are crucial in any tech environment.

I am highly motivated to contribute to your projects, bringing a commitment to quickly learning and adapting to new processes.
